

## CCH Intensive Two-Day Workshop with Devin Hastings

### “Diabetes Motivational Coach™ Training”

In Perth on October 14<sup>th</sup> and 15<sup>th</sup> 2008  
In Melbourne on October 18<sup>th</sup> and 19<sup>th</sup> 2008.

*“Most people with diabetes suffer from far more than just the effects of the disease itself. All that doctors can do is prescribe medication and send them home. Meanwhile the patient feels more out of control and helpless than ever before because they lack the emotional motivation and knowledge of how to constructively deal with their situation. Their feelings can actually worsen their diabetic condition!” (Devin Hastings)*

#### What this workshop will do for you:

- \* Easily move your practice into a high demand area and see your client waiting list expand dramatically with people who need your trained help in this area.
- \* Acquire the 5 essential steps necessary to powerfully help diabetics significantly improve their condition by permanently reducing their weight.
- \* Help those people and their families who are suffering from this leading cause of illness and intense emotional pain.
- \* Accelerate your client’s intellectual and emotional learning ability helping them to breakthrough the ‘usual denial’ which often produces anguish, suffering and huge financial cost. Those who do not achieve this new insight are in danger of experiencing massive pain, loss of limb, loss of sight or even worse.
- \* Competently assist medical professionals to help their clients achieve better results and easily learn the technical details needed to act with confidence and authority even if you have no experience with medical matters
- \* Discover and help resolve your client’s underlying issues using NLP, Parts Therapy, Ericksonian Hypnosis, Logotherapy, Transactional Analysis and other successful therapeutic techniques
- \* Learn how these special hypnotherapy skills can also be applied to many areas of your general practice creating unexpected, powerful and fast results
